PROFILE

Business Intelligence Engineer with 3 years of experience designing scalable analytics solutions that transform operational data into executive decision-making tools. Experienced in Power BI, SQL, DAX, Power Query, Azure Data Services, and dimensional modeling. Proven track record delivering enterprise dashboards, automating reporting processes, and partnering with stakeholders to improve operational performance.

PROFESSIONAL EXPERIENCE

BI Developer - IT Operations Associate

PwC ETIC

02/2025 – Present

Cairo, Egypt

- Architected and deployed an enterprise IT Hardware Monitoring System using SharePoint Online and Power BI, centralizing inventory management across 1,000+ assets and eliminating manual reconciliation through automated reporting.
- Designed 3 Service Desk Analytics dashboards (Monthly, Quarterly, and Yearly), providing actionable operational insights while reducing manual reporting by 5 hours per month.
- Designed semantic data models using Star and Snowflake Schema principles; authored DAX measures for KPIs including SLA adherence, asset utilization rates, and inventory turnover.
- Collaborated with IT management and procurement teams to define KPI requirements, validate data quality, and drive BI adoption across the department.

IT Support Engineer

PGESCO

10/2023 – 02/2025

Cairo, Egypt

- Delivered L1/L2 technical support for hardware, software, and network incidents following ITIL best practices, consistently meeting SLA targets.
- Managed IT asset lifecycle including procurement intake, inventory tracking, and device decommissioning for a multi-site organization.
- Administered Microsoft 365 environment — user provisioning, license management, SharePoint permissions, and Exchange configurations.
- Maintained a knowledge base of resolved incidents and SOPs, reducing repeat escalations and onboarding time for new engineers.

PROJECTS

Enterprise IT Asset Analytics Platform

- End-to-end BI solution migrating Excel-based inventory tracking to SharePoint Lists connected to an 8-page Power BI interactive dashboard covering all hardware categories.
